

Pet Policy

Tiny Stars Daycare and OSC is a pet friendly centre. We have hamsters in some of our classrooms and an aquarium in the Program Director's office.

Seasonally we have baby chicks, ducks, quail and turkeys that we hatch in our classrooms with the children. The chicks remain for 7-14 days before going to their farm.

All pets are in good health and contained in their enclosures except when an Educator brings them out to engage with the children under their direct supervision. At no time will children directly handle the animals without supervision.

Children and Educators will wash their hands with warm soapy water after handling any of the pets or cleaning the enclosures.

Tiny Stars Daycare and OSC believe it is important for children and animals to interact and learn about one another, however we do recognize that young animals may get excited and jump or lick a child.
